How does trust affect your experience of the Internet?

Are you **aged 65 years old or older?**
Do you regularly use the Internet to search for information, make bookings, or buy products?

If **YES**, we invite **YOU** to take part in a workshop to explore your views and experiences of **TRUST** when you are online

Thursday 16th May at **10:30am**
Oxford e-Research Centre Conference Room, 7 Keble Road
or
Friday 17th May at **10:30am** at
Oxford e-Research Centre Conference Room, 7 Keble Road

Workshops will last around **3 hours** and you will be thanked for your time with a **£20** high street voucher.

Booking essential – see other side

This activity is part of project which explores new technological opportunities to enhance/re-build user's trust, and identify how this may be achieved in ways that are user-driven and responsible.

The session involves interactive activities and friendly discussion. Your contribution to this workshop will provide you, researchers, regulatory bodies and society in general, a better understanding of what makes online platforms and services trustable.

What else will you gain from taking part?

- Develop your skills in team work, debate, and communication
- Increase your confidence and critical thinking when making decisions online
- Share your views and suggestions for change in relation to trust when using the Internet

Refreshments will be provided and transport can be arranged for you if necessary.

For more information, and to sign up for the workshops, email Dr Menisha Patel (Menisha.Patel@cs.ox.ac.uk)
